**SUPERVISORY PATENT EXAMINER**

1. This is in response to the amendment filed under Request For Continued Examination, dated on 12/29/03.

It is noted that Applicants previously submitted Declarations, dated on 6/16/03; the Declarations failed to overcome 35 USC 102(a) issue in the office action (Paper No. 4), but instead, it resulted the 35 USC 102(b) issue (Paper No. 9).

The Applicants' arguments for their newly submitted Declarations, filed on 11/24/03, after the final office action, mailed date, 9/24/03, have been fully considered. The newly submitted Declarations overcome the rejection over DuPuis, "What You See Is What You Test: A Methodology for Testing Form-Based Visual Programs".

For further search and consideration, DuPuis remains the closest art of record.

#### **Reasons for Allowance**

2. Claims 1-31 and 43-67 are allowed.

As pointed out by the Applicants in the Remarks (page 12, second full paragraph) that the newly submitted declarations (filed on 11/24/03) correct the previous submitted declarations for clarifying the issue under 35 USC 102(a), instead of the 35 USC 102(b), and as pointed out by Applicants (Remarks: page 11) that the Declarations aver that the DuPuis article describes the inventors' own words; therefore, the art of record DuPuis cannot meet the effective filing date under 35 USC 102(a): The following is an examiner's statement of reasons for allowance:

The cited prior arts taken alone or in combination fail to teach claimed invention to methods, computer readable medium, and a system for testing a grid of a spreadsheet cells comprising at least features:

*"collecting one or more test elements for the first spreadsheet cell;  
tracking an execution trace for each spreadsheet cell; and*

Art Unit: 2122

*marking as exercised a subset of the test elements that participated in the execution trace for the first spreadsheet cell*; as recited independent Claim 3, and in as such manners as recited in independent Claims 1, 43, and 51.
